"I believe creative thinking has the power to connect the seemingly unconnected. In my context, design is intelligence & diligence made visible."

Klug.
Clever.

When the working environment becomes more complex, the need for simplicity increases. Simplicity of design and simplicity of handling are key aspects of a users' behavior.

The principle of Klug is both simple and clever: creating something that is both functional and beautiful yet it is able to provide a clear and harmonious working environment.

Klug.
Base structure.

Klug is designed in a manner that its structure can be reconfigured at any point of time effortlessly.

We wanted to create a system that is not only functional and elegant, but delivers unquestionable structural strength and integrity.
